THE MALUTI HEIGHT-ADJUSTABLE DESK RANGE

Move, sit, stand, work. The Maluti desks are easy to customise to each user's needs as they adjust from a sitting or standing position throughout the day, helping to support good blood circulation and reduce neck and back strain. Please enquire if you need a unique height-adjustable solution.

The Maluti Height adjustable desks have been designed and developed in South Africa for the African market. We use quality materials and electronic and drive components from Germany and Austria. Our European partners ensure that we stay up to date with international trends. The Maluti range brings state-of-the-art performance and flexibility to the modern workplace.

Desks are assembled in an assembly facility designed specifically for these products. Each leg undergoes friction testing, and is quality approved before being assembled. Final product is also checked & levelled before being packed. The desks have excellent stability and we have added a customizable pinch protection safety feature. The desks come with a 3-year warranty, and we stock all parts and electronics locally, in case something should go wrong.

Inquire about our add-ons:

There are also several optional add-ons available to enhance the experience. Select a desired work surface size and finish and add a screen or modesty. For maximum convenience, add desktop power and opt for programmable controls.

You can upgrade to a LOGIClink control unit, which can be manually controlled but also allows connection to a free Motion@Work app on your smartphone that can be used to control your desk movement within a Bluetooth range. The app can also alert you when it is time to stand again, helping you to optimise the use of the desk. You can also store your preferred height settings and review your desk usage on the app. Furthermore, you get a year free subscription to the BakkerElkhuizen Work&Move software which allows HR and employers to track the usage of the desk.

STANDARD CONTROL: UP/DOWN CONTROL

The height of the desktop can be adjusted by holding in the up or down arrow until the desktop has reached the desired position.

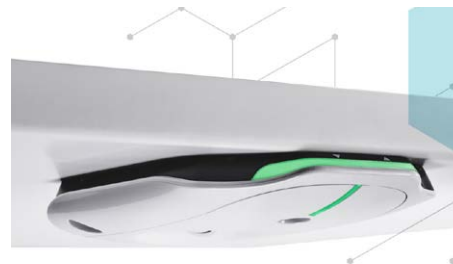

MALUTI HEIGHT ADJUSTABLE DESK CONTROLS & ACCESSORIES

PROGRAMMABLE CONTROL: PROGRAMMABLE CONTROL

The user can set and store up to 4 preferred desktop positions.

Hold the number of the pre-set position down. The desktop will stop moving once the preset position has been reached.

SMART CONTROL: LOGIClink CONTROL UNIT

Can be controlled manually or through Bluetooth via a free Motion@Work app on your smartphone. The app can alert you when it is time to stand, helping you to optimise the use of the desk. You can also store your preferred height settings and review your desk usage.

You get a year free subscription to the BakkerElkhuizen Work&Move software which allows HR and employers to track the usage of the desk.

OBLIQUE POWER SET: BELOW DESK POWER

The Oblique fits into the cable tray under the desktop. It can be used to power the desk motor(s), desktop power set (optional extra), and additional device such as a monitor or light.

Add a:

- 5m cable with 3 point plug
- Interconnecting cable to connect multiple desks in series.

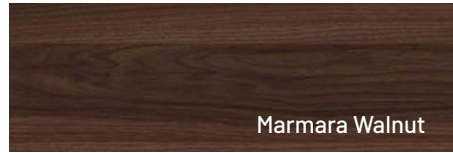

PUNTO PLUS: DESKTOP POWER

The power set fits into the standard 80mm cable management port on the desktop. It allows the user to power a laptop, phone and light, and accommodates a pull-through network cable. 5m Cable is included.
